Global Financial Stability Report

A Report by the Monetary and Capital Markets Department
on Market Developments and Issues

Gaston Gelos, Ph.D., Internationaler Währungsfonds (IWF), Washington D.C.

The Global Financial Stability Report provides an assessment of the global financial system and markets, and addresses emerging market financing in a global context. It focuses on current market conditions, highlighting systemic issues that could pose a risk to financial stability and sustained market access by emerging market borrowers. The Report draws out the financial ramifications of economic imbalances highlighted by the IMF's World Economic Outlook. It contains, as special features, analytical chapters or essays on structural or systemic issues relevant to international financial stability. ([read more](#))
