# CALL FOR PAPERS

## Virtual Workshop: 21st IWH-CIREQ-GW Macroeconometric Workshop: Forecasting and Uncertainty on October 16th and 17th, 2020

The workshop provides a platform to discuss new developments in the field of empirical and applied macroeconomic modelling and aims at bringing together academic researchers and practitioners. We invite applied and theoretical papers dealing with time series, forecasting, economic uncertainty and expectations. Papers that explicitly cover the macroeconomic modelling on forecasting and uncertainty are particularly welcome.

On each conference day invited speakers promote the key topic in addition to contributed papers and discussants.
