Language:**

English

**Call for Papers:**

## Macroeconometrics and Panel Data

The Halle Institute for Economic Research and the Centre Interuniversitaire de Recherche en Economie Quantitative (CIREQ) are organizing the 13<sup>th</sup> Macroeconometric Workshop to be held in Halle (Saale) on December 7-8, 2012.

The workshop provides a platform to discuss new developments in the field of empirical and applied macroeconomic modelling and aims at bringing together academic researchers and practitioners. We invite applied and theoretical papers dealing with time series and business cycles, economic forecasting or international macroeconomics. Papers that cover panel and pooled cross-section methods and their application in macroeconometrics are particularly welcome.

Each conference day is opened by a keynote speaker, followed by contributed papers.

**Keynote Lectures:**

- Cheng Hsiao (University of Southern California)
- Jean-Pierre Urbain (Maastricht University)

A conference fee will not be charged. Further information will be provided on the website <http://www.iwh-halle.de/c/start/veranst.asp>.
